Deep Learning Lab Assignment 9
Due date: November 8, 23:59

Download the script provided on Moodle.

Go through the code and understand what is going on.

Find some text in Russian as dataset and train the model.

Submission

Submit your notebook with the code output through Moodle before the deadline.

Late submissions will lose 20 points for each day.

Labs should be completed individually. In the event that academic misconduct such as plagiarism or cheating is discovered, the student will receive no credit for the work, and the event reported to the Dean of your school. Please consult the Academic Integrity Statement given in the syllabus for more details about academic honesty.
